You can extend your combos by playing guitar riffs on your steampunk flame sword. This game doesn't need me to defend it.. this game have bugs, i buy new alienware computer \$8000 ,high graphic card and it disappear after one week.. what theeeeeee..., i buy exercise machine and it disappear too.. oh my god, its so annoying.. please fix it.. I sincerely love all of the Nancy Drew games. This one is one of my favorites. It's worth the money.. World hardest game in 3D ♥♥♥♥ing hell. If there is an oil field in a country, just wait until US government starts sending it's proud troops there to spread some democracy on the territory by overthrowing the local regime. That's all about the plot of this pathetic attempt at FPS, which is not even a game at it's core, but just another inept call to hate and, obviously, to kill Russians.. This game is not worth it.

Now don't get me wrong, I understand the humor behind this developer's games. I own Gay World and President Trump The Way In Uganda. So, I'm not gonna review the theme, but the gameplay.

It took about 5 minutes for the game to load. After that, the game was slow, but I managed to pull through. But then I found the enemies. The enemies look like The Rake, but they don't do anything. They can deal damage, but you can beat the game without killing them. Literally. They do not go towards you, like a normal enemy. All they do is just stand there. The only way to get damaged is to walk right in front of it. Oh yea, the game acts like it's a big deal that you have 99/100 health. You hear a heartbeat noise throughout the entire game.

Now you can see why this isn't worth your money.. Same as the first game you are just a useless powerless loser it is so much fun being unable to do nothing.. I need jesus more than ever after purchasing this.

10/10 would recomend to anyone.. Worst. Dad. Ever.

10/10 . Would be a despicable human being again.

I'm on a Rift and I love this game. There could be more to it but it's engaging in its simplicity. Very few OP toons. There are some I just can't seem to figure out how to unlock, some guns too. There are also trophies in the game and some people have earned them; they're all high level so maybe you have to get to a certain level to unlock. It would be nice to know.

I've encountered a few people using cheats, quite obviously. Most people playing are honest and are usually victorious based on their skill. Toons and guns are all "equal" in the sense that they all have an equal pool of strength/energy/speed; some toons are faster but less tough/hp; same with guns...sort of. The turning movement is not fluid or smooth which is a big disappointment but the snap turning has a number of settings which is ok. There aren't very many people playing and playing against the bots gets stale. So **BUY THIS GAME SO I CAN PLAY WITH MORE PEOPLE INSTEAD OF BOTS. THANK YOU.** :)

Well, I started the review with a "recommend". While the game has amazing potential I unfortunately have to change my review to not recommending in it's current condition. Two major flaws accompany this game that simply can't be overlooked. The first is an extremely low player population and variety. For whatever reason (marketing?), waiting for players can be excruciatingly slow if you can even find one. Fighting bots gets old fast. The only real game is pvp and it's only 1v1. The players are 2 basic categories: kill you before you can look around and proceed to kill you copiously and the here I'm putting this VR on my 5 yr old let's sit back, watch and laugh. So the two extremes. That was player population and variety. The second reason I can't recommend this game currently is because of cheating. Whether this is from external sources (players) or some internal intrinsic problem with game itself is unknown and in fact irrelevant. Some players have a known advantage in which they are immune to certain weapons, coincidentally the top 2 or 3 most powerful weapons you can get in the game. This is huge and needs to be fixed. Time invested to raise yourself ever so slightly (10hrs) can be lost by playing one low level cheater (or person with an advantage).. Very nice demo. I wish to but a game with such a graphic.. I find this product to be very time consuming as I haven't tried painting before, but Black Ink is a very nice program to use. It can make people without talent do a unique design in a few minutes, and a professional do some amazing artwork. I recommend buying this if you have a hobby for art, also can be used by professionals but I am unsure if there are better programs out there for professionals to use.. Very Good Game. Ex "The Tribe" e agora "Tribe Pass", \u00e9 um jogo onde cada situa\u00e7\u00e3o realmente importa a escolha certa. \u00c9 interessante e explora a fun\u00e7\u00e3o de lideran\u00e7a por sua parte, na qual voc\u00ea emprega como um xam\u00e3 da tribo e os guia atrav\u00e9s das dificuldades de explorar o mundo em busca da sobreviv\u00eancia. Um game que para seu estilo est\u00e1 bem polido mas nada que n\u00e3o possa ser melhor e mais envolvente.

Vale a pena a compra.

Nota 6.9/10 (Sou bastante crtico vai por mim.)

;D. its never going to be finished
