Can't seem to find a way to play this game multiplayer with my friend while also avoiding the horrible lag associated with the only multiplayer server being hosted in Russia.

if you're buying this with a friend to play together make sure you live in Russia or it will not work properly.. Good so far, much better with a flight stick. A menu system that can be used while flying. Runs well. Id buy now at \$5 tho.

. It hasn't got the World Rally Fever table too, but it's still a great classic pinball game. Worms themed! Awesome :-). Really detailed and enjoyable scenery, if you enjoy general aviation flight training, touch and go practice etc, lot of fun with new C400 TT, Velocity XL, Q200 and Vor Diamond GA carbon fiber airplane's DLC's as well. Really enjoying all the dynamic scenery at the airport, for emmersive aviation sim play ! Highly recommend this weekend at the discounted price or when onsale. Also there are some very good mods similar like this on web, one of the best ones is Detailed Victoria Canada, but this payed DLC definitely of a much higher caliber and detail is amazing. , desert location does not hit your pc rig too badly runs very smooth, and Iam just running an older Dell M1730 on 29" HDMI . Fun Flight is KTNP to San Diego international and back, 35min. With Grumman Goose etc even more fun water landings in San Diego Harbour and back in Desert on wheels with this DLC :). Odd amalgamation of Egypt, Germany, and (because of course, how could it not contain this when we're involving Germany, apparently) war. But unique doesn't always mean better, and many a serious topic that held promise for something deep and meaningful was left touching the shallowest of surfaces. Oh and there's a tank 'building' minigame every now and then.

I didn't exactly go into this with a lot of expectations but aside from asking myself what the flying family-friendly-word this was supposed to be, it was also a let-down. I wouldn't go as far as to call it offensive or insensitive, and it's not the game's fault that I tire of the Germany + war combo, but there was always the hope that this could deliver a new perspective. It did not.. Played the game but laggy on my computer. Didn't have a tutorial or anything. Theres no way i can beat the Prison level. Gosh I wish we can refund games!. Avernum 5 is a beautifully crafted party based old school RPG with a absolutely MASSIVE world. This game has kept me busier and more interested than many of todays modern RPGs.

I honestly prefer this to games like Skyrim - but that's a matter of taste.

If you're looking to experience the old school RPG experience, and want a game so massive you could sink a hundred hours into, this is your game.

wtf did i just buy. Well, I do not recommend it to americans. The game is about a russian agent, working against the 3th reich. Its gameplay is hard, but rewarding at the same time, story is good. Great concept, even greater accomplishment.. This is such a fun game but if unity sees this, I'm just recommending you add more types of gems in gen mode and you should look at incredibox for inspiration [?][?][?][?]. The video intro literally has nothing to do with the game besides the small snippets of the minigames. Don't get drawn-in like I was by the stillshots of the whole bar in chaos and people shooting each other. That doesn't happen at all.

This bar serves as about a 5-minute play-around area with nothing more to do than to house the minigames which are, sadly, pretty boring and, in explicably cost money that doesn't seem to have any other purpose in the game.

The graphics are pretty poly for a game that's not in Early Access and over the \$3.00 price range. I get that it's part of the "art" of the game. But, when that's ALL you have in the game? I don't count that as a positive characteristic.

I don't recommend this game unless you're looking for a very short diversion since most of the minigames are literally a 1 to 2 minute task (besides bartending which just kind of ends when you run out of glasses and have to figure out how to end the minigame gracefully and keep your cash). Not worth the \$10 they are asking by any stretch of the imagination. Definitely a good buy as part of a bundle or a cheap addition to round out a game library. But, don't expect it to keep your attention for more than a few minutes at a time.. Really wanted to like this game, had a descent start. but their has not been an update in over 2 years. this game is one of the very reasons i won't buy early access games anymore.. I had a bit of mixed feelings about this game. I found Route B to be super boring, but by the time I got to A it was really exciting! To me the mysteries in the game were more than worth playing through to figure out. Definitely worth full price because of how many hours you will spend playing! I bought it on sale though. The enneagram wasn't very intuitive but you get the hang of it after awhile. All in all a very good sci-fi mystery game that I'd go so far as to class with Steins;Gate.. I bought this loco for 9 USD on sale, and I was quite surprised. A few people I had talked to said this model was outdated, poor sounds ,etc, but for some reason, I found myself thoroughly enjoying it! I like the variety of Liveries available in this pack, my favorites being the NSE "Toothpaste" and the "Dutch" Engineering. I also LOVE the sounds of those classic Sulzer engines thumping away. The one thing I found with the locomotive that I did NOT like, was that as soon as you put a few cars on the rear, it bogs the engine WAY down. I was running a stopping service on the Great Western Mainline, with 5 coaches, and could only get upto 60 in a distance of 2 miles.

Overall, I would definitely recommend this locomotive for purchase, though I can't say as though I would buy it for full price, just as it IS a little outdated. Final rating= 8.5/10

Also, if you want to take this locomotive to the next level, you should buy the [Armstrong Powerhouse Class 33 Sound Pack](#). [This completely revamps the sound set, and makes the 33 among the best-sounding in game!. Alright.](#)

[We can be brief about this game.](#)

[Air Guardians delivers as much as it costs.](#)

[Meaning:](#)

[The graphics are of a poor quality.](#)

[The controls are fast, if using a gamepad or joystick.](#)

[The sound effects are of poor quality](#)

[Air combat is dumb. \(You don't need any skills, just fire away\)](#)

[The thing is:](#)

[Do you feel ripped off by Air Guardians? Well, to be honest, not really for such a price upon release.](#)

[It's not easy creating an air combat game from scratch, so you should take that in regard also and so far it's okay for the price.](#)

[Maybe, with more work on the weapons systems \(Limited number of bullets/rockets/bombs and target lock\) it might be even better. But, on the other hand, it's not a simulator or AAA game. So, there's that.](#)

[I think it's okay. Just for the fun of it and for the courage of the developer\(s\) to get something like Air Guardians done for a cheap price.. Loot Hunter is a pirate themed match 3 game with RPG elements. You get quests, fulfill them and get rewarded. If you attack another ship, battle begins in the form of pick 3 matching. It has simple graphics, small map and boring gameplay. I like match 3 games and its kind of fun-ish, but the replay value is lacking, its just not that good. meh 5/10. This was the darkest tale of revenge that I have ever encountered. Never have I seen a soul so depraved and so psychopathic in his quest to destroy those who wronged him. And I watched Star Trek II: The Wrath of Khan 5 times!!!!](#)

---

[BUT WHAT ABOUT THE PEE SOCK? Will it return in the sequel? Only time will tell, but this humble reviewer eagerly awaits the next installment of the Johnny Bonasera series.](#)
