A friend of mine told me this sentence: De hecho, el fuego y sus escombros son de mucha importancia. I am not completely sure about the construction in the context. Also, how would you say the following in Spanish? The flames and its ashes are of great importance. The context of the sentence is that they want to choose a date/time for the funeral. A: The sentence you present seems correct to me. I would write it in the following way: De hecho, la llama y sus escombros son de gran importancia. In this

What's New in the UnicEdit?

What's New in this version: 1. Improved visual appearance of toolbar and status bar. 2. Improved unicode file import feature. 3. Improved unicode file export feature. 4. Improved unicode text wrapping and editing. Requirements: You will need to have Microsoft Windows NT or its successors to install and use the latest version of the application. However, if you own a compatible computer, you can still download and use the application. UnicEdit Screenshots: 1. Your download should start automatically. If you wish to install the product, follow the next steps: - Run Setup.exe and follow the on-screen instructions. - When the installation is completed, a message will indicate that you may start the application. - Press the "Next" button to accept these terms. - After accepting, click the "Next" button to start the application. - When the installation is completed, a message will indicate that you may run the application. - Press the "Finish" button to close the application. - When the installation is completed, a message will indicate that you may run the application. - Press the "Finish" button to close the application. 2. Double-click on the application icon to run it. 3. Connect to the web and open your favorite web browser to get the latest version of the application. So we definitely do have a difference of opinion on UnicEdit. Some features would be nice to have. I would like to have the option of changing the default font of the text editor and to have the position of the toolbar fixed at the top of the window. Some features have to be disabled otherwise the application would crash. Overall I think the program is good, and the lack of some features is compensated by the good work they did on it. UnicEdit is the first program to offer unicode editing directly within Windows. You no longer have to depend on a separate program that has to be configured to work. UnicEdit is all you need for unicode editing directly within Windows. Features: - Supports word, paragraph and line wrapping. - Supports different font sizes. - Allows you to use CTRL-Z to undo changes made to your document. - Supports paragraph styles, colors, and styles. - Uses the.tlz file

format for saving and loading unicode documents. I have been using and testing UnicEdit for the last few
